## **DJ Disc jockey**

*Selector, crate digger, musical host, turntablist*

This series looks at the the evolution of music, technologies, and practices of the modern dancefloor DJ. Join us every Friday afternoon for discothèque history and classic grooves!

Each session will start with an informal talk on developments in the DJ's tools and craft over five decades of dance music.

Then join us for an hour of listening to a music genre that fueled those changes, inspired creativity, and reimagined the dance floor.
